PUMP PULLER

Our **Speedy Pump Puller** is powered by a Honda gas engine that drives the hydraulics.

The hydraulics drive the reel. You can also raise and lower heavy pumps and motors with the hydraulic arm.

*Multiple Well
Pump Tests*

*920 ft Pump
Install*

PUMP PULLER

The **Speedy BOLT** is an electric version that can run off a 120V socket in the wall or a 2kw generator.

This unit is great for smaller residential wells where you can handle the pump and motor.

The **Speedy BOLT** is safe and totally silent when operating from a wall socket.
